## ADVANCED CRANE CONTROL:

Automatic load and tilt warnings provide better feedback and safety for the operator.

## WIRELESS REMOTE CONTROL:

Lets the operator be more mobile and maintain a safe distance from the load.

## MAINTAINER CRANES ARE SAFETY CONSCIOUS:

- Load sensing, pressure compensated, true proportional, section crane valve.
- Redundant hydraulic overload protection (even when using manual handles).
- Counterbalance valve machined into base of lift and extend cylinders for maximum protection.
- Warning horn, e-stop, air compressor, speed control and start/stop are all standard on crane remote controls.
- Self latching safety hook on load block.
- Safety decals and coloring per ANSI z535.4 requirements.

## OUTRIGGER AND CRANE OVER-RIDE CONTROLS:

Hydraulic Extend outriggers and over-ride controls are standard on 10,000 lb & larger cranes, and are available as an option on smaller cranes. Manual crank or manual extend are also available for smaller cranes.

## SHORT TOWER CRANES

Maintainer manufactures popular Short Tower Cranes which can be installed on the street-side or curb-side of the vehicle!

## TALL TOWER CRANES

The Tall Tower ties directly into our reinforced body substructure so it will not affect cabinet integrity. Tall Towers actually save on overall vehicle weight!

*Our Tall Tower Cranes have a  
much lower center of gravity,  
helping vehicle stability*
