Sheldon, IA – February 1, 2011 – Maintainer Corporation of Iowa, Inc. introduces the new line of aerial lift products. The **M Series** line of truck mounted aerial lift products represent a complete new line of custom body related products from Maintainer. This new line includes 51 model configurations of insulated, non-insulated, telescopic, material handling, and articulated lifts. With operating ranges from 29 ft to 45 ft. and maximum lift ratings up to 600 lb, the M Series line of truck mounted aerial lifts combined with a Maintainer custom body represents a “Value Added” alternative for the custom application.

Standard Features: Fiberglass Baskets, Lower Override Controls, Proportional Hydraulic Controls, Continuous and Non-Continuous Rotation, Rubber Boom Supports, Curbside Basket Entry, and a Two (2) Year, Parts & Labor Warranty

Options: Vinyl and Aluminum Baskets, 12 Volt Emergency Back-up Systems, Outrigger and Torsion Bar Stability Systems, Steel Tail Shelves, Tool Circuits, Basket Rotator, and Tool Trays.

Users often want a material-handling option as well. Jibs and winches are becoming very popular. Through the use of torsion bars or outrigger assemblies, a 17,500- to 19,000-pound GVWR truck can be equipped to successfully lift material loads up to 1,000 lb. at working heights up to 45 ft., while maintaining a relatively compact product footprint.

Eight (8) models of the M Series line are dedicated to material handling applications. With maximum reach and lift capacities of 45 ft and 1,400 lb respectively, these multi-functional aerial lift configurations will meet the unique needs of most municipal, utility, and DOT service applications.

Utilizing 60 in to 84 in CA chassis, the maximum GVWR requirement for this line of aerial lifts is 19,500 lb., with or without the use of outriggers or torsion bar stability systems.

Maintainer has been building premium quality standard and customized service bodies, lube bodies, cranes, and accessories since 1976. For more information on other fine Maintainer products, call 1-800-831-8588 for the dealer nearest you or visit our website at www.maintainer.com.
