Sheldon, IA – February 1, 2011 – Maintainer Corporation of Iowa, Inc. introduces its new MTS Body. This 1-ton service crane body has been designed to perform to a high standard of durability and reliability, while providing the maximum performance characteristics available in today's mechanics truck industry.

Features and Options:

- **Increased Payload Capacity**
Through the utilization of 80,000 psi high yield strength materials throughout the design, the new MTS 1-ton body offers 15% more payload rating. That's 600 lbs more payload!
- **Durability**
The new MTS 1-ton body maintained all the structural integrity and durable characteristics of its predecessor Better products through better engineering, that's what you get from Maintainer!
- **Functionality**
The addition of Nylatron® rollers to our manual out rigger extend assembly greatly reduces the force required to extend the out rigger and the unwanted friction caused by normal contamination buildup.

Maintainer has been building premium quality standard and customized service bodies, lube bodies, cranes, and accessories since 1976. For more information on other fine Maintainer products, call 1-800-831-8588 for the dealer nearest you or visit our website at www.maintainer.com.
