ALL-ALUMINUM LUBE TRUCKS

Maintainer's ALL-ALUMINUM Lube bodies are available for chassis up to 23,500 GVW

CLASS	CAB TO AXLE	MAX GALLONS	MAX TANK QTY
5	84"	525 live gallons + grease	7 tanks
6	108"	700 live gallons + grease	8 tanks

Fully hydraulic or air pump systems available

WHY CHOOSE ALUMINUM?

- WEIGHT SAVINGS OF 12%** over our comparable steel body. You also save \$\$ on the chassis:
 - 84" - 19,500 GVW with aluminum vs. 22,000 GVW with steel
 - 108" - 23,500 GVW with aluminum vs. 26,000 GVW with steel

- INCREASED PAYLOAD - 48%** more product available on aluminum vs. steel
 - *Note: Maintainer's steel lube bodies already have aluminum tanks, doors, and more. You will see additional weight savings & payload over competitors that use steel bodies and steel tanks*

- CORROSION RESISTANCE**

**DURABLE, RELIABLE
PERFORMANCE**
Maintainer bodies are
BUILT TO LAST, providing the
BEST OVERALL VALUE
in the industry
